SIGNATURE PROGRAM: DOMESTIC AND SEXUAL VIOLENCE AWARENESS AND PREVENTION

110-010 Campus Sexual Assault (Convention 2022)

WHEREAS, Sexual assault on college and university campuses impacts 1 in 5 women and 1 in 15 men during their college years; and

WHEREAS, Sexual assault on high school and middle school campuses is on the rise; and

WHEREAS, Only a small percentage of campus sexual assaults are reported due to confusion about the reporting process and a lack of confidence that the perpetrator will be held accountable; and

WHEREAS, Campus sexual assault survivors suffer high rates of Post-Traumatic Stress Disorder (PTSD), depression, and drug and/or alcohol abuse that can adversely impact their health and productivity; therefore

RESOLVED, That the General Federation of Women's Clubs urges its member clubs to support:

- Comprehensive campus sexual assault programs that include prevention, education, bystander intervention, and services for survivors, including the provision of an independent, on-campus advocate;
- Healthy relationship forums that include abstinence and consent topics;
- Legislation that ensures coordinated, confidential support and serves the needs of survivors in a non-judgmental environment;
- Funding for training of students, faculty, and campus staff in reporting and responding to sexual assault cases;
- Sexual assault policies that are transparent, have clear procedures for reporting sexual assault, and penalties that hold perpetrators accountable;
- Legislation that permits survivors to choose whether the sexual assault is handled through the campus non-judicial system, the criminal justice system, or both.

110-020 Domestic and Sexual Violence Awareness and Prevention (Convention 2022: Includes “Domestic Violence Awareness and Prevention,” Convention 1987; and “Sexual Assault,” Convention 1987)

WHEREAS, Domestic and sexual violence, including but not limited to verbal, physical, emotional, mental, and sexual abuse, continues to increase, regardless of race, religion, gender and/or gender identity, national origin, disability, sexual orientation, age, educational and socioeconomic status, and may result in emotional distress, physical injury, and/or death to victims; and

WHEREAS, Domestic and sexual violence has many aspects requiring society’s attention, including:

- Financial dependence on the abuser, forcing the victim to remain in dangerous situations;
- Human trafficking for sexual exploitation of victims who are forced, defrauded, or coerced;
- Dating violence, particularly among teens, where a person in a dating relationship is harmed, threatened, intimidated, or controlled;
- Increased risk of future domestic and sexual violence actions by children and youth who witness and/or are victimized by domestic and sexual violence, including emotional trauma;
- Increased risk to native women residing on American Indian tribal land and in Alaskan Native villages who suffer domestic and sexual violence at a greater rate than other populations; and

WHEREAS, Research shows that domestic violence abusers and stalkers with firearms are five times more likely to kill their victims, and firearms further exacerbate the power dynamic used by abusers to inflict emotional abuse and coercive control over their victims; and

WHEREAS, Prevention and prosecution of domestic and sexual violence may be provided through collection of evidence and legal protections; and

WHEREAS, State laws and available legal remedies only address certain areas of abuse and may be applied inconsistently, and the need for law enforcement and judicial training, emergency shelters, and counseling services for survivors of abuse continues to grow; therefore

RESOLVED, That the General Federation of Women's Clubs urges its member clubs to support legislation and promote programs to:

- Support survivors of domestic and sexual violence without discrimination;
- Identify at-risk families and suspected cases of domestic and sexual violence;
- Increase awareness of the risks of financial dependence and provide necessary resources to become financially self-sufficient;
- Advocate for increased awareness and education on the prevention of domestic and sexual violence, including dating violence prevention programs in schools;

- Authorize Tribal governments to have jurisdiction under federal law to prosecute and hold domestic and sexually violent offenders accountable and provide services to survivors;
- Strengthen state laws prohibiting possession of firearms by individuals charged with domestic violence, sexual assault, and/or stalking until the charges have been resolved or their complete sentence has been served, and requiring the relinquishment of firearms to law enforcement while a valid order of protection is on record against them;
- Ensure the timely entry of all domestic violence, sexual assault, and/or stalking criminal records and orders of protection into the National Instant Criminal Background Check System (NICS);
- Provide survivors access to Rape Kits, medical testing, and treatment;
- Advocate for legal support and assistance for victims;
- Expand the legal protection for Intimate Partner Violence (IPV) to include both current and former spouses and dating partners, as in the definition provided by the Centers for Disease Control and Prevention;

WHEREAS, Victims are fearful of reporting incidents due to the lack of privacy and confidentiality in military communities, fear of retaliation, and limited availability of victim services; and

WHEREAS, Statistics show that less than 1% of alleged rapists will be convicted and serve time in prison; and

WHEREAS, Hundreds of thousands of untested Sexual Assault Evidence Collection Kits, often referred to as Rape Kits, are stored in police and crime labs in every state, and untested Rape Kits impede prosecution of perpetrators, adversely affect survivors and prevent healing, and allow serial rapists to avoid identification; therefore
